Australian Graduate Program

Meet Our Employees

For Anee Azim, the path to Lockheed Martin involved an internship with our Science, Technology, Engineering Leadership and Research Laboratory (STELARLAB) to conduct research on artificial intelligence and machine learning. It was while working on that project that Anee realised she wanted to work at Lockheed Martin Australia permanently, so she applied and is now one of our

A keen interest in naval combat systems and an opportunity to deliver world class technology to the Royal Australian Navy (RAN) made Lockheed Martin Australia the employer of choice for Richard Dominy. Richard is the Engineering Manager for Surface Maritime projects for Lockheed Martin in Australia.

Australian Graduate Program

The Lockheed Martin Graduate Development Program is designed to expose you to unique learning opportunities, while contributing to stimulating, groundbreaking projects.

We know it takes a diverse, collaborative and multi-skilled team to deliver our programs. That's why we need graduates who are driven, ambitious team players who are as passionate as we are about building a better tomorrow - today.

Ready to join the Lockheed Martin team and make a difference?

Applications for our mid-year 2020 and February 2021 Graduate Development Program, and 6-month paid Industry Based Learning placements will be open from Monday 17 February 2020 and close on 10 April 2020.

To apply, click through to [AU Careers](#) and review the early careers vacancies listed and submit your application - we understand you may wish to be considered for several of these exciting positions, so please apply to all of the roles and locations you are interested in. We will also be attending a number of university graduate fairs around Australia and hosting online discussions regarding our graduate program, so keep an eye on our social media posts on LinkedIn for all the details.
