

### TOP 24 GRADUATE RECRUITERS FOR 2021

Each year the AAGE's Candidate Survey collects feedback from university students who have been offered a graduate position with an employer.

Candidates who participated in the 2022 AAGE Candidate Survey were asked a series of questions including this: *"Please name the one representative, and the company they belong to, who made the most positive impression on you during your job search"*

Over 3,300 candidates responded to the survey and they nominated more than 1,000 employer representatives. The 24 people with the most votes appear below (including ties), in alphabetical order by first name.

*Employer Representatives making the most positive impression.*
